## Smartphone technology, designed for your vehicle.

Ford is a leader in 3G-capable Remote Access technology. The Remote Access application from Custom Accessories for vehicles equipped for remote start includes an audible

car-find feature, as well as optional email and/or text security notifications. It also features 100% Plug 'N Play installation — no invasive procedures or lengthy installation.

You can start your car from just about anywhere you are.

- All you need is the Remote Access application on your iPhone or Android smartphone and a Wi-Fi® or cellular signal.
- When you are at work or traveling, keep track of your vehicle with optional email and/or text security notifications.
- Equipped with true confirmation remote start and audible car-find feature.
- Backed by a Ford Custom Accessories Warranty.\*

\*See dealer for limited warranty details.

Easily add additional Ford or Lincoln vehicles to your smartphone app. This new Remote Access technology is supported by the following makes and models:

| 2011+ MODEL YEAR        | 2013+ MODEL YEAR |
|-------------------------|------------------|
| <b>Ford Vehicles</b>    |                  |
| F-150                   | Taurus           |
| Super Duty®             | Flex             |
| Edge                    |                  |
| Explorer                |                  |
| <b>Lincoln Vehicles</b> |                  |
| MKX                     | MKS              |
|                         | MKT              |

Using the Remote Access application provides a whole new way to perform basic vehicle functions from anywhere with a Wi-Fi or cellular signal.

-  Press the LOCK option to lock all of the vehicle's doors and tailgate/hatch glass.
-  Use the UNLOCK option to open the vehicle.
-  Use the START function to turn on the engine. A timer will appear which indicates the remaining engine run time.
-  Press the FIND function to locate your vehicle by sounding the horn and flashing the parking lights.
-  Press the STOP option while the vehicle is remote started to shut off the engine.
