Dealers! Create your own Custom Packages!

Differentiate your stock from those down the street by preloading your own graphics packages. By preloading, you can have the vehicle ready for delivery and the price of the graphics package added right into the price of the vehicle.

- Studies have found that new car buyers add an average of \$800 in accessories
- Many customers are not aware that they can purchase graphic kits from their dealer
- Take advantage of this opportunity to present graphic kits to your customers
- Graphics packages can be worked into the financing deal for just pennies a day

Ask your Ford Accessory Distributor about Professional Installation!

Work with your local Ford Accessories Distributor (FAD) and ask them to assist you with a preload plan. They have professional installers to support your preload efforts and to assist in any warranty issues.

- Use multiple kits to create your own Custom Package
- Have your FAD representative provide the install
- All that's left to do is sell
