

Conductive Charging from JVIS!

Keep Your Phone Charged Without all the Unsightly Wires

Never worry about your phone losing its charge again. Simply set it on the charging tray, close the top of the console and the phone is hidden from view yet easily accessible via Bluetooth.

Convenient Charging in your Vehicle – and at Home!

Not only do you get a charging system custom-fit to your vehicle, you also get a charging pad for your home, too. Simply set your phone on the pad when you get home and your phone will always be charged and ready to go.

- In-vehicle charging tray is tailored to fit inside the console
- Stream audio via Bluetooth directly to SYNC® while maintaining a full charge
- No worries if change or other metals come in contact with the charging pad – the charger automatically shuts itself off
- Spills can be easily wiped up; constructed of tough, automotive grade materials
- No drilling or tools required...simply set the charging tray in the console and plug-in to the 12V powerpoint
- Designed specifically for your Lincoln MKC

Home Charging Pad

How to get your Wireless Charging Phone Case

Custom fit charging cases are available for select iPhone and Samsung Galaxy phones. Your Wireless Charger includes a voucher for one charging case at no additional charge, and additional cases are available for purchase for those with multiple phones.

- Visit website www.fordwirelesscharging.com
- Click “Redeem Voucher” and follow instructions at the website
- A universal adapter is available for many phones and devices with a micro USB port
- Other optional accessories for your kit available at extra charge at the website

A voucher (shown at right) is included and may be redeemed for one Wireless Charging Case (Additional cases are available for purchase)
