- Mounting hardware

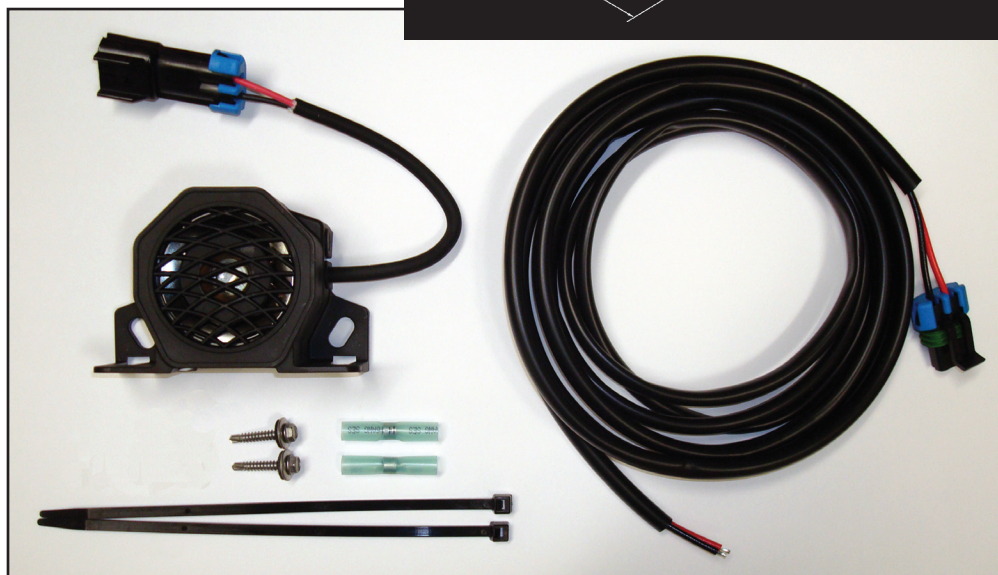

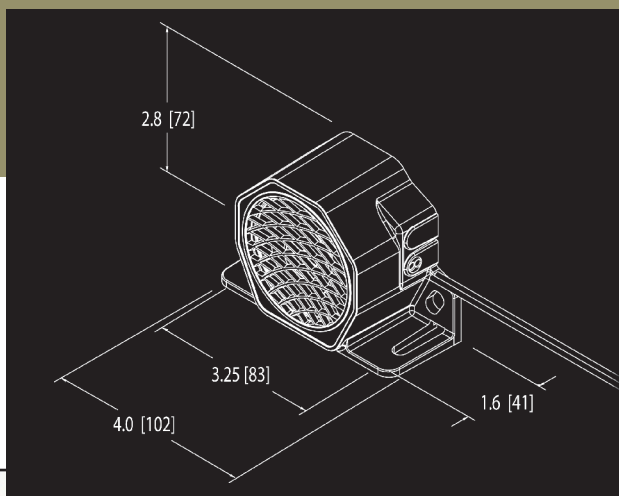

Product Information

This compact back-up alarm provides a cost-effective warning solution with ECCO quality and reliability. A reinforced nylon housing with epoxy-encapsulated electronics provide exceptional durability and protection against moisture, dust and vibration.

Ideal for use on all types of vocational trucks, particularly those used in high pedestrian traffic environments and where frequent backing is required, including landscaping and construction, dump truck chassis, delivery trucks, etc.

Meets the requirements of SAE J994, UL, OSHA, Bureau of mines, GSA K-Spec, all state regulations and conforms to European Council Directive 89/336/EEC (CE).

Kit shown in image is representative.
Hardware contents may vary.
