LIMITED WARRANTY INFORMATION FOR LINCOLN ORIGINAL ACCESSORIES, ALONG WITH LINCOLN LICENSED ACCESSORIES

Lincoln Original Accessories will be warranted for whichever provides you the greatest benefit: 24 months/unlimited mileage, or the remainder of your Bumper-to-Bumper 4-year/50,000-mile New Vehicle Limited Warranty. Lincoln Licensed Accessories (LLA) are warranted by the accessory manufacturer's warranty. LLA are designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your Lincoln Dealer for details and/or a copy of all limited warranties.

LINCOLN AUTOMOTIVE FINANCIAL SERVICES

Whether you decide to purchase or lease, you'll find a plan designed to fit your individual needs. Visit LincolnAFS.com or your Lincoln Showroom to explore your financing options.

LINCOLN PROTECT EXTENDED SERVICE PLANS

Whether you purchase or lease your Lincoln vehicle, insist on genuine Lincoln Protect extended service plans. Lincoln Protect has a variety of plans to give you peace-of-mind protection whether you want vehicle component or maintenance coverage. Plus, they are fully backed by Lincoln and honored at all Lincoln dealerships in the U.S., Canada and Mexico. When you visit your dealer, insist on genuine Lincoln Protect extended service plans.

USING DIFFERENT-SIZED WHEELS OR TIRES

Adding wheels or tires that are a different size than your original equipment wheels and tires may affect the performance and/or electronic systems of your vehicle including its braking, ride and handling characteristics, stability, resistance to rollover, fuel economy and tire traction (on wet, dry, snowy or icy roads). Changes in vehicle performance are not covered by the New Vehicle Limited Warranty. It is strongly recommended that your replacement tires be the same as your vehicle's original equipment tires to ensure proper levels of performance and safety during normal use. Lincoln vehicles were developed and matched with specific wheels and tires. If you choose different replacement tires, make sure they are comparable in size, load range, speed rating and construction type (radial- and bias-belted tires) as your vehicle's original equipment tires. Larger-sized wheels or tires may require a new spare tire and additional components. Also, tire chains cannot be used due to lack of clearance to the wheelhouse. Trucks equipped with accessory wheels may not be compatible for use with snowplow equipment. For approved wheels and other important information, see your dealer for details.

WARNING: Acceptable levels of performance and safety may not be provided if you use tires not recommended for your wheels.
